

Standard Operating Procedure: ENRICH SOCIAL MEDIA: Facebook & Instagram

Version: 1.0

Review Date: May 08, 2026

Effective Date: May 11, 2026

Purpose:

To establish a standardized process for educating patients on the biological necessity of Autologous Serum/PRP and driving patient-led advocacy during physician consultations.

Scope:

This SOP applies to all Healthcare Virtual Assistants (HVAs) and Marketing personnel managing the **Enrich Consumer (B2C)** social media channels (Facebook and Instagram).

Compliance & Regulatory Standards

- **HIPAA Compliance:** No Protected Health Information (PHI) shall be posted. If a patient shares personal health details in comments/DMs, the HVA must move the conversation to a secure, encrypted communication channel or internal CRM.
- **ISO Quality Control:** All posts must adhere to the "Quiet Luxury" visual guidelines to ensure brand consistency and professional integrity for physician-facing content.
- **Professionalism:** Maintain a clinical, empathetic tone; avoid "salesy" language or unauthorized medical claims.

Content Pillars & Schedule

Posts are scheduled **3x weekly (Mon/Wed/Fri)**.

Day	Theme	Target Audience	Focus Angle
Mon	The Optimized Executive	High-Achievers/Tech	Performance & Screen Fatigue
Wed	The Autoimmune Truth	Sjögren’s, Lupus, RA	Biological Replacement & Growth Factors
Fri	The Critical Asset	High-End Patients	Long-term Corneal Preservation

DISCLAIMER: This electronic information and all contents contain information from ENRICH ADVANCED EYE CARE which may be privileged, confidential, or otherwise protected from disclosure. The information is intended to be for the addressee only. If you are not the addressee, any disclosure, copying, distribution, or use of the contents of this message is prohibited. If you have received this electronic message in error, please notify the sender immediately and destroy the original message and all copies.

Operational Workflow

Phase I: Content Preparation

- 1. **Visual Selection:** Select "Quiet Luxury" assets—crisp whites, deep blues, and minimalist settings. **Prohibited:** Stock photos of pain or cluttered "sale" banners.
- 2. **Copywriting:** Utilize approved HVA Caption Templates. Ensure every post includes the mandatory CTA: *"Ask your eye specialist about Enrich or DM us to find a provider"*.
- 3. **Tagging Protocol:** Tag top-tier local clinics in the specific region mentioned (e.g., Las Vegas) to build brand association for physician partnerships.

Phase II: Engagement & Monitoring

- 1. **Hashtag Monitoring:** Actively monitor #SjogrensSupport and #DryEyeRelief.
- 2. **Educational Outreach:** If a user mentions standard drops failing, reply with educational value regarding the lack of growth factors in mass-produced drops.
- 3. **Privacy Filter:** Immediately flag any DM containing patient medical history for secure handling.

Phase III: Monthly Audit & Reporting

Every 30 days, the HVA must submit a report covering:

- **Inquiry Volume:** Total DMs regarding serum access.
- **Sentiment Analysis:** Identifying clinics where patients are requesting Enrich availability.
- **Performance:** Which "Disease Trigger" (e.g., Lupus vs. Sjögren's) generated higher engagement.

Visual & Aesthetic Standards (ISO Quality Gate)

- **DO:** Use soft natural lighting and high-quality static images or clean Reels.
- **DON'T:** Use bright "sale" graphics. The feed must reflect a premium wellness clinic, not a pharmacy.
- **THE GOAL:** The feed should look like a premium wellness clinic, not a pharmacy.

HVA CAPTION SAMPLE TEMPLATES (COPY & PASTE READY- CONTENT CREATION)

MONDAY: THE OPTIMIZED EXECUTIVE

HEADLINE: PRECISION CARE FOR THE HIGH-STAKES ENVIRONMENT. 📖 ✨

BODY: For the modern leader, vision is the most critical tool in the kit. But hours of deep focus and screen time take a toll. Chronic dryness isn't just an annoyance; it's a performance bottleneck.

Enrich Autologous Serum uses your own unique biology to restore the ocular surface, ensuring your vision keeps pace with your ambitions. Don't just manage fatigue—optimize your recovery.

#ExecutiveHealth #BioHacking #PerformanceVision #EnrichEyeCare

WEDNESDAY: THE AUTOIMMUNE TRUTH

HEADLINE: WHEN ARTIFICIAL TEARS AREN'T ENOUGH. 🧬 🛡️

BODY: Systemic conditions like Sjögren's and Lupus don't just cause "dry eyes"—they cause a biological deficiency. Mass-produced drops lack the essential growth factors your body needs to heal.

Enrich provides a customized, preservative-free serum made from your own blood, delivering the exact proteins required to repair corneal damage at the source. It's not a luxury; it's the medical standard for autoimmune eye care.

#SjogrensWarrior #AutoimmuneHealing #RegenerativeMedicine #EnrichEyeCare

FRIDAY: THE CRITICAL ASSET

HEADLINE: YOUR VISION IS A VITAL ASSET. PROTECT THE INTEGRITY. 🛡️ 👁️

BODY: You wouldn't compromise on the quality of your healthcare elsewhere—don't start with your eyes. Chronic ocular surface disease can lead to permanent scarring and vision loss if left untreated.

Standard drops mask symptoms. Enrich Autologous Serum preserves the integrity of your cornea by providing a biological "safety net" of healing nutrients. Protect your sight with the gold standard in regenerative eye care.

#CornealHealth #VisionPreservation #MedicalNecessity #EnrichEyeCare

Social Media Management Workflow & Coordination Guide

This guide outlines the daily and weekly operational flow for the HVA Coordinator (Social Media Manager) and the Logistics & Patient Support Lead

Core Team Roles & Responsibilities

- **Part-Time HVA Coordinator (Social Media Manager):**
 - Responsible for content creation and posting based on the clinical, "Quiet Luxury" aesthetic.
 - Executes the Mon/Wed/Fri posting schedule.
 - Reports directly to the Logistics & Patient Support Lead for guidance and tribal knowledge sharing.
- **Logistics & Patient Support Lead:**
 - Provides oversight, assistance, and leadership for all social media activities.
 - Serves as the final point of coordination to ensure posts are executed as a unified team effort.
 - Monitors the management calendar for lapses or delays.

2. Step-by-Step Operational Workflow

Step 1: Content Planning & Creation (The HVA Coordinator)

- **Adherence to Pillars:** Create content specifically targeting the **Optimized Executive** (Mon), **Autoimmune Truth** (Wed), or **Critical Asset** (Fri).
- **Visual Check:** Ensure all images use crisp whites and deep blues; strictly avoid stock photos of people in pain or cluttered banners.
- **Template Integration:** Apply the copy-and-paste templates for headers and body text provided in the strategy.
- **HIPAA Review:** Confirm that no patient identifiers or PHI are visible in any creative assets.

Step 2: Coordination & Tribal Knowledge (Team Execution)

- **Review Session:** Before finalization, the HVA Coordinator coordinates with the Logistics & Patient Support Lead to ensure the tone is clinical yet empathetic.
- **Tagging Strategy:** Collaborate to identify top-tier local clinics in specific regions (e.g., San Diego, Las Vegas) to tag in the posts for brand association.

Step 3: Posting & Reporting (The HVA Coordinator)

- **Execution:** Post to Facebook and Instagram according to the 3x weekly schedule.
- **Engagement:** Monitor hashtags like #SjogrensSupport to offer educational value to patients struggling with standard drops.
- **Inquiry Management:** Use the "Find a Doctor" CTA to drive patients to ask their specialists about Enrich.

DISCLAIMER: This electronic information and all contents contain information from ENRICH ADVANCED EYE CARE which may be privileged, confidential, or otherwise protected from disclosure. The information is intended to be for the addressee only. If you are not the addressee, any disclosure, copying, distribution, or use of the contents of this message is prohibited. If you have received this electronic message in error, please notify the sender immediately and destroy the original message and all copies.

Step 4: Calendar Updates & Exception Handling

- **Tracking:** The HVA Coordinator must update the [Social Media Management Calendar](#).
- **Incident Reporting:** If there is a problem (late submission, content lapses, or technical issues), the HVA Coordinator must log it immediately for the Logistics & Patient Support Lead.
- **Resolution:** The Logistics & Patient Support Lead will then assist in troubleshooting the delay or correcting the content to maintain ISO-ready standards.

Step 5: Monthly Reporting

- Every 30 days, the HVA Coordinator compiles data on patient inquiries, engagement sentiment, and clinic mentions to submit to the Logistics & Patient Support Lead.

Communication Protocol

- **Urgent Issues:** Communicate via internal channels if a post cannot be made on the Mon/Wed/Fri schedule.
- **Secure Handling:** Any DMs regarding medical history must be escalated to the Logistics & Patient Support Lead for secure, HIPAA-compliant follow-up.
