

Standard Operating Procedure: Scheduling Coordinator: Professional Operations & Dialogue Guide

Version: 1.0

Effective Date: April 10, 2026

Review Date: March 17, 2026

Scope: Clinical Operations & Administrative Staff

Purpose:

This guide serves as the standard operating procedure for all patient interactions at **Enrich**. It balances efficient data collection with high-touch patient care.

I. Core Phone Handling Protocols

- **The Opening:** *"Thank you for calling Enrich. This is [Your Name]. How can I help you today?"*.
- **The Philosophy:** Be adaptable. While these scripts provide a foundation, adjust your tone to the patient's needs while ensuring 100% data accuracy.

II. Patient Scheduling Workflows

1. Returning Patients (Refill Requests)

Focus: Speed and verification of existing records.

Phone call handling scripts:

- ✓ **Big four Audit:**
 - *"In order for us to proceed, I need to confirm some details to ensure that we have your record correctly and to pull out your chart".*
 - *"May I please have your full name first please?"*
 - *"May I also have your DOB?"*
 - *"Thank you so much for confirming."*

If you have received this electronic message in error, please notify the sender immediately and destroy the original message and all copies.

- ✓ **Address Check:** "I have your address on file, are you still located at [Read Address]. Is that still correct?"
- ✓ **Data Entry:** Enter the address immediately into **Workwave**.
- ✓ **Updates:**
 - "While I'm getting this pulled up, has anything changed regarding your prescribing doctor (ask this separately to ensure accuracy of gathering patient's data)"
 - How about your concentration percentage has there any changes ? (ask this separately to ensure accuracy of gathering patient's data)
 - For billing purposes verification, I have here in our end, card on file ending in [Last 4 Digits-base it on the Patient intake form uploaded in the Trello card]?" (ask this separately to ensure accuracy of gathering patient's data)
- ✓ **Booking (Using the route manager):** Search for the next availability in their area. If the first option fails, ask for their preferred week.
- ✓ **Closing:**

WHEN SCHEDULE IS GOOD AT PATIENT:

"Perfect, I have you set for [Date/Time]. Is there anything else I can help you with?"

" Thank you so much for having Enrich! I will send you a confirmation email shortly. Have a good day ahead. "

IF THE SCHEDULE IS NOT FIT WITH THE PX:

"I completely understand, and I apologize for the inconvenience this causes. Since that window doesn't fit your schedule, here is what I can do : I'm going to check in with one of our coordinator regarding the schedule maybe we can at least have some schedule adjustments but this is subject for approval yet I will definitely call you back once it is finalized and will make sure to see any other creative solution for your appointment schedule. "

"With that in mind, do you have a preferred day or time that I should keep an eye out for?"

"Got it. Let me take that back to our scheduling system. I will look into every option and call you back shortly to get this settled for you. Does that sound fair?"

Yes: perfect! Thank you so much for having enrich and will surely call you back once it is finalized and will make sure to see any other creative solution for your appointment schedule. Thank you so much and have a nice day ahead! "

2. New Patients

Focus: Comprehensive intake and process education.

- **Data Collection:** If no doctor's order is present, you **must** obtain:
 - Full Name and Date of Birth.
 - Phone Number and Email.
 - Home Address.
 - Referring Doctor's Name, Facility, Phone number and Address.

Phone call handling scripts:

- **Big four Audit:**
 - *"In order for us to proceed, I need to confirm some details to ensure that we have your record correctly and to create your chart in our system "*
 - **Full Name:** *"To start your official chart, could you please provide your full legal name as it appears on your ID?"*
 - **Date of Birth:** *"And what is your date of birth?"*
 - **Contact Info:** *"What is the best mobile number for us to use for logistics and tech dispatch?"*
 - **Location:** *"Could you provide your full address? This helps us determine the best 'Draw' "*
 - *"Thank you so much for confirming. "*
 - *Lastly, Can I have your referring doctor or provider's name? as well as the facility name?*
 - *Thank you so much and I appreciate it for providing all the information needed.*

Note: Verify, If an order or prescription has already been sent in our email/Fax, confirm all the details above with the patient for accuracy.

- **Explaining the "Mobile Service" Process:** IF THE PATIENT DOES WANT TO KNOW OUR SERVICES

"As a mobile company, we come directly to you for your convenience. Once the blood draw collection is completed, we hand-deliver the finished product to your preferred location within 24 to 72 hours".

- **Billing Transparency:**

"Regarding billing, we collect your payment information now to secure the appointment; however, you will not be charged until the day of your service, once it has been completed".

HVA Coordinator Guide: Patient Eye Assessment Workflow

As a Coordinator, your goal is to guide the patient from their first inquiry to a clinical recommendation. Precision and rapport are key.

Scenario: When the patient is NEW to our service and does not have a prescription from a doctor and wants to avail our service out of their pocket. Patient willing to proceed patient eye assessment with one of our clinicians who is designated to issue, identify or determine the correct concentration recommendation for the patient.

✓ **Start here to ensure the lead is not anonymous and is HIPAA-compliant.**

- **Greeting:** *"Alright, So I am here to help you finalize your eye assessment so we can get your recommendation back from the clinical team as quickly as possible."*
- **Full Name:** *"To start your official chart, could you please provide your full legal name as it appears on your ID?"*
- **Date of Birth:** *"And what is your date of birth?"*
- **Contact Info:** *"What is the best mobile number for us to use for logistics and tech dispatch?"*
- **Location:** *"Could you provide your full address? This helps us determine the best 'Draw' location for your blood work."*

✓ **Delivery Methods**

You have two ways to complete the assessment.

Note: Route A is preferred as it builds better rapport.

The Assessment Transition:

"Thank you. I have initiated your patient file in our system. To get your recommendation back as quickly as possible, we have two ways to complete your Eye Assessment. Which one would you prefer?"

Option 1: Over the Phone (Recommended)

"We can go over the assessment right now. I'll ask you the relevant questions regarding your symptoms, history, and pain levels, and I'll type your answers directly into your file for the doctor. This is usually the fastest way to get your results."

Option 2: Email (Self-Serve)

"Alternatively, I can email the Patient Eye Assessment form to you. You can fill it out at your own pace and send it back. Once you submit it, the form will automatically link to the chart I just created for the clinician's review."

✓ **The Closing**

"Once the assessment is finalized—whether we do it now or via email—the file moves to our clinical loop. A clinician will review your history to issue your Eye Drop Percentage Recommendation (such as 20%, 50%, or 100%).

As soon as we receive that percentage, I'll call you back to finalize your 'Draw' appointment and take care of the payment.

Which option works best for you today?"

✓ **The Clinical Interview (What to Ask)**

When filling out the **Patient Eye Assessment form**, ensure every field is **"Filled Completely"**.

Ask the following:

- **Symptoms:** *"Could you please describe the symptoms you've been experiencing, such as dryness, burning, or redness?"*
- **Duration:** *"How long have you been dealing with these symptoms?"*

If you have received this electronic message in error, please notify the sender immediately and destroy the original message and all copies.

- **Diagnosis:** "Have you seen a doctor for this, or have you received a specific diagnosis, like Sjögren's syndrome?"
- **Treatment History:** "What treatments have you tried so far? For example, have you used Restasis, Xiidra, or over-the-counter drops?"
- **Surgical History:** "Have you had any recent eye surgeries, like LASIK or Cataract surgery?"
- **Goals:** "What are you looking to achieve most from using autologous serum tears?"
- **Pain/Dryness Scale:** "On a scale of 0 to 10—where 0 is no pain and 10 is the most severe—what level of pain or dryness are you feeling?"

Closing the Loop

1. **Submission:** Flag the file as "Assessment Complete." in Trello platform.
2. **Notification:** Send the file to the reviewing processing center.
3. **The Output:** Inform the clinician who will review the history and issue a Serum Concentration Recommendation (e.g., 20%, 50%, or 100%).
4. **Finalize:** Once you receive the percentage, call the patient to schedule their "Blood Draw" appointment.

HVA Rebuttal & Objection Handling Guide

Objection 1: "I'm too busy to do this right now."

- **Goal:** Pivot to Route B while ensuring the PID is created first.
- **The Script:** "I completely understand. I've already initiated your patient file in our system, so we don't lose any time. I'll email the form over now. Once you submit it, it automatically links to your chart for the clinician to review your history and issue your eye drop percentage."

Objection 2: "Can't you just send me the price first?"

- **Goal:** Explain why the assessment is required for pricing (Serum Concentration).
- **The Script:** "I wish I could give you a flat rate, but because these are custom-made from your own serum, the cost depends on the concentration the doctor recommends—anywhere from 20% to 100%. We need to know your symptom severity and medical history (like Sjögren's or past surgeries) to give you an accurate quote."

The information is intended to be for the addressee only. If you are not the addressee, any disclosure, copying, distribution, or use of the contents of this message is prohibited. If you have received this electronic message in error, please notify the sender immediately and destroy the original message and all copies.

Objection 3: "Why do you need my full address just for a form?"

- **Goal:** Connect the address to the logistics of the "Draw".
- **The Script:** *"Great question! We use your address to locate the nearest 'Draw' site or mobile technician for your blood collection. This ensures that once the clinician approves your assessment, we can get your appointment scheduled immediately."*

Objection 4: "I've already told my doctor all of this."

- **Goal:** *Emphasize the specialized nature of Autologous Serum Tears.*
- **The Script:** *"I understand, but our processing center needs this specific assessment to determine the exact serum concentration required for your relief. It only takes about 3 minutes over the phone, and I can type your answers directly into the file for you."*

Coordinator "Pro-Tips" for High Conversion

- **Assume the Phone Call:** Instead of asking *"Do you want to do this over the phone?"*, try: *"I have your file open now, let's go ahead and knock these questions out so we can get your recommendation back today."*
- **The "Symptom" Hook:** If they seem hesitant, ask one clinical question first: *"On a scale of 0-10, how much dryness are you feeling today?"* Once they answer, they are usually more willing to finish the rest of the form.

III. Product Q&A: Handling Common Inquiries

Use these standardized responses for Serum and PRP inquiries.

Category	Patient Question	Standard Response
Requirements	Do I need an Rx?	"No, but it's a good idea for your doctor to monitor your progress. If you don't have one, we can guide you to our questionnaire for a review and concentration recommendation".
Application	How often do I use them?	"Always follow your doctor's advice. If no guidance was given, we generally recommend using them up to four times a day as required".
Storage	How do I store the bottles?	"Keep the bottle you are currently using in the refrigerator . All other bottles must stay in the freezer . Thaw them 24–48 hours before use".
Contacts	Can I wear contact lenses?	"Yes, but do not apply the drops while lenses are in. Apply them before inserting lenses or after taking them out for the day".
Safety	Are there side effects?	"There is very little risk because the components of these drops come directly from your own body".
Expiration	Why only 7 days per bottle?	"Our drops are all-natural and contain no artificial preservatives. Bacteria can begin to grow after one week at room temperature".
Troubleshooting	What if I left a bottle out?	"Because these drops are made from your blood and have no preservatives, please discard the bottle immediately . Heat accelerates bacterial growth".

IV. Critical Reminders

- **Travel:** Advise patients to keep bottles frozen during travel; once opened, they must be refrigerated.
- **Medical Advice: NEVER** provide medical advice. If a patient reports discomfort, instruct them to contact their doctor immediately.
- **PRP Limitations:** Explain that PRP drops are only available in 1-month supplies because they lose effectiveness over time.
