

Standard Operating Procedure: Patient Intake, Scheduling to Drop off Using the Platform (Coordinator’s Workflow Process)

Version: 1.0

Effective Date: April 10, 2026

Review Date: April 08, 2026

Scope: Clinical Operations

Purpose: Integrated Patient Intake and Logistics Management

The primary objective of this Standard Operating Procedure (SOP) is to establish a **unified, high-precision workflow** that synchronizes patient data management in Trello with optimized route scheduling in Routific. By adhering to these protocols, the HVA Coordinator ensures that every patient journey—from the initial fax or phone call to the final product delivery—is documented with 100% accuracy and clinical accountability

Trello (Your Digital Filing Cabinet)

Trello is where you manage patient "Cards" and track their progress through the workflow.

Step 1. The "Enrich Front Office" Board

You will move patient cards through these columns as they progress:

1. **Intake/Faxes:** Start here for new calls or faxes. Create a card with Name, DOB, Phone, Email, Address, and Doctor Info.
2. **Waiting Room:** For patients you are trying to reach. If they don't respond, move them to "No recent orders."
3. **Approval Column:** Use this for out-of-state patients (non-CA/NV) or scheduled PRP patients to order kits.
4. **Scheduled:** Move patients here once their appointment is confirmed.
5. **Billing:** Move the card here on the day of service while the tech is with the patient. This alerts the billing team to charge them.
6. **Drop Off:** Once the patient is charged, the billing team moves the card here so you can schedule the delivery.
7. **Alphabetical Columns (A-Z):** After delivery is finished and you've logged the refill info in the Google Sheet, file the card by last name.

Critical Card Details

- **PID (Patient ID):** Use the birthday backwards (e.g., YYDDMM).
- **Custom Fields:** You must fill in Billing (Patient/Doctor), Product (Serum/PRP), Additional Fees, and Total Cost

This workflow integrates the specific steps for handling both **Returning** and **New** patients, utilizing **Trello** for administrative tracking and **Routific** for logistics management:

Step 1: Patient Identification & Preparation

A. Returning Patients

1. **Pull up chart on Trello:** Locate the existing patient card in the alphabetical columns.
2. **Confirm Address:** Verify that the address on file remains accurate.
3. **Confirm Clinical Details:** Ensure the product, concentration, and referring doctor are still correct.
4. **Verify Payment:** Confirm the card on file is up to date.
5. **Apply Updates:** Make any necessary changes to the Trello card immediately.

B. New Patients (0% Progress Start)

1. **Create Trello Card:** Start in the **Intake/Faxes** column.
2. **Obtain Patient Info:** Confirm full name, DOB, phone number, and full address.
3. **Obtain Doctor Info:** Record name, facility, and address.
 - *Tip:* Use the **Facilities** or **Doctor List** boards for quick searching.
4. **Confirm Product:** Verify if the patient requires **PRP** or **Serum** and the required concentration.
5. **Generate PID:** Create the Patient ID by reversing the birthday (**YYDDMM**).
6. **Fill Documents:** Complete the intake form, order form, and credit card authorization.

Step 2: Logistics & Scheduling (Routific)

Tip: Follow the ROUTIFIC SOP GUIDE for more clarification for the navigation of the platform.

Once an appointment is confirmed, move the card to the **Scheduled** column in Trello and initiate the Routific process.

Regional Windows & Rules

Adhere strictly to these blocks to ensure lab efficiency. No exceptions are permitted without mandatory approval from CJ.

- **Southern California (SoCal):** Tuesday, Wednesday, and Thursday. Friday is reserved for **Overflow Only**.
- **Reno & Northern California (NorCal):** Monday and Tuesday of designated alternating weeks.

Step 3. Go to Routific platform:

Setup: Adding a Route Template

- Navigate to the designated date on the calendar.
- Click the "+" icon in the top left corner of the screen.
- Select "Add route from template".
- Choose the appropriate template based on the task
 - **Technician:** For scheduling blood draw appointments.
 - **Courier:** For scheduling the delivery of finished products.

Entering Customer Information

- **Select "Add customer" and fill in the following sections:**
 - **Basic Info:** Enter the customer's Full Name and Address.
 - **Contact Info:** Enter their Phone Number and Email Address.
 - **Delivery Info:** Leave this section blank until you are ready to schedule the patient.
 - **Duration Adjustment:** The system defaults to 30 minutes for drop-offs; manually update this to 15 minutes.

Blood Draw: 30 minutes

Drop-off: 15 minutes

Creating and Assigning the Order

- When ready to schedule, select the specific patient(s).
- Click "Create order" (the box icon with a + sign on the black bar).
- Go to the "Routes" tab (the 4th icon on the left sidebar).
- Select the relevant date.
- Go to the "Not scheduled" tab in the top left corner.
- Select the order(s) and click "Schedule" (the calendar icon on **the black bar**).
- Choose the specific route you wish to add them to and select "Schedule to 1 route" at the bottom right.

The information is intended to be for the addressee only. If you are not the addressee, any disclosure, copying, distribution, or use of the contents of this message is prohibited. If you have received this electronic message in error, please notify the sender immediately and destroy the original message and all copies.

Finalizing the Appointment Card

- **Open the patient's card:**
 - Add any necessary additional notes.
 - Enter the delivery date and time window.
 - Ensure the duration is set to 15 minutes for drop-offs.\

Time Window & Buffer Policy

To prevent "cascading delays," you must manually apply these buffers on the appointment card:

- **Blood Draws (Technician):** Maintain a **1-hour buffer** window.
- **Product Deliveries (Courier):** Maintain a **2-hour buffer** from the previous appointment.
- **5-Minute Buffer:** If an appointment is at 8:00 AM, input the window as (e.g, **8:00 - 8:05.**)
- **Duration Adjustment:** Routific defaults to 30 minutes for drop-offs; you **must** manually set it to **15 minutes.**

Step 4: Publishing & Driver Assignment

Timeline: Complete ONLY the day before the scheduled route.

1. Assign Driver: Select from the drop-down menu.

2. Publish: Click the Publish button.

3. Republish: If any changes are made to the routes, time windows, or notes after the initial publish, you must click Republish to update the driver's queue.

If you have received this electronic message in error, please notify the sender immediately and destroy the original message and all copies.

Step 5: Trello Documentation & Finalization

1. **Update Trello Due Date:** Set the card's due date to match the scheduled Routific time.
2. **Trello Checklist:** Add the specific appointment date and time to the card's checklist.
3. **Move to Scheduled:** Shift the card to the **Scheduled** column on the "Enrich Front Office" board.
4. **Copy to Monthly Board:** Copy the patient card (Chart) to the designated **Monthly Board** and the specific scheduled date.
5. **Cleanse Card:** Delete the intake form from the card residing on the **Monthly Board** (keep it on the main Chart).
6. **Assign Technician:** Add **CJ** to the card on the monthly board to notify the technician.
7. **Finalize Routific:** Once the appointment is fully confirmed, finalize all information in Routific.
8. **Confirmation & Instructions:** Send an email confirmation to the patient including the **Appointment Policy** and specific **PRP/Serum instructions**.
