

Standard Operating Procedure Route Scheduling and Management Using ROUTIFIC

Version: 2.0
Effective Date: March 25, 2026
Review Date: March 27, 2026
Scope: Clinical Operations & Administrative Staff
Revision: 2.0 (Includes Regional Blocks and Buffer Policy)

1. Regional Scheduling Windows

To ensure laboratory efficiency and eliminate unscheduled overtime, all Virtual Assistants must adhere to the following regional collection blocks. No scheduling is permitted outside these windows without **Mandatory Approval from CJ**.

A. Southern California (SoCal)

- **Primary Collection Days:** Tuesday, Wednesday, and Thursday.
- **Friday Protocol:** Reserved for **Overflow Only**. Only use Fridays if the Tue–Thu block is at 100% capacity.
- **Hours:** All draws must occur within Normal Business Hours.

B. Reno & Northern California (NorCal)

- **Rotation:** These regions operate on an **Alternating Week** basis.
- **Schedule:** Monday and Tuesday of their designated week.
- **Goal:** These are scheduled on "opposite weeks" from heavy SoCal volume to balance lab bandwidth.

2. The "Time window & Buffer" Policy

To account for road delays and specialized appointment types, the following "Time Window" buffers must be applied on the Patient Appointment Card:

- **Product Deliveries (Courier):** Maintain a **2-hour buffer** from the previous appointment’s end time to prevent cascading delays.
- **Blood Draws (Technician):** Maintain a **1-hour buffer** window.
- **Purpose:** This prevents "cascading delays" where one late appointment ruins the entire day's schedule.

Phase I: Adding a Route Template

- 1. Navigate to **Google Calendar**.
- 2. Select the **designated date** (Ensure it aligns with the Regional Blocks above).
- 3. Click the [+] icon (top left) > "**Add route from template.**"
 - o **Technician:** For blood draws.
 - o **Courier:** For product delivery.

Phase II: Scheduling & Buffer Management

- 1. **Add Customer Basic Info**
 - o **Full Name**
 - o **Address**
 - o **Contact information** (Phone number & Email Address)
 - o **Delivery information**
 - ✓ Leave blank until ready to schedule patients
 - ✓ Duration is automatically set to 30 minutes for drop-offs; you will need to set it to 15 minutes.
- 2. **Create Order:** Select the patient and click the [+] icon on the black bar.
- 3. **Assign to Route:** Go to the **Routes** tab > "**Not scheduled**" > **Select order** > "**Schedule.**"
- 4. **Finalize Appointment Card:**
 - o **Go to the patient’s Appointment card > Add Notes:**
 - Add specific instructions or any additional notes
 - o Add **delivery date**
 - o **Time Window:** The "**Time window & Buffer**" **Policy** based on current road delay protocols.
 - o **Duration:** Change from **30 minutes** to **15 minutes** for scheduling a drop-off.

Phase III: Publishing & Driver Assignment

- Timeline:** Complete **ONLY** the day before the scheduled route.
- 1. **Assign Driver:** Select from the drop-down menu.
 - 2. **Publish:** Click the Publish button.
 - 3. **Republish:** If any changes are made to the routes, time windows, or notes after the initial publish, you **must** click Republish to update the driver’s queue.
